

Saijayachandraraju Ratnakaram

Experience Summary

- Current Role: Software Engineer
- Over 3.8 years of experience in the IT industry across multiple domains, with a strong focus on development and building robust business logic.
- Results-driven Infrastructure Technology Lead Analyst with extensive experience in designing, implementing, and supporting enterprise IT infrastructure across UNIX, Red Hat Enterprise Linux (RHEL), and IBM AIX platforms.
- strong analytical and problem-solving skills, seeking to transition into Oracle Revenue Management and Billing (ORMB) development and contribute effectively to enterprise billing and revenue management solutions.
- Skilled in end-to-end server lifecycle management, including factory builds, server provisioning, customization, hardening, operating system installation, patch management, and performance optimization.
- Comfortable working independently as well as in collaborative team environments, with the ability to handle multiple tasks effectively.
- Strong understanding of the Software Development Life Cycle (SDLC), Agile methodologies, and requirement analysis
- Strong Knowledge of SDLC, ITIL Processes and Monitoring tools.

Skills Summary

Domain	Media & Entertainment – Paramount Global, Viacom.
Programming Languages	Python, PowerShell, SQL
Operating System	Windows 10, 11
Tools / Data Bases	Unix, Red Hat Enterprise Linux (RHEL), IBM AIX, Factory build and server customization, Git, Jenkins, Patch Management, ITIL 4, ITSM tools, Agile-LCAP
Cloud Services	AWS (S3), GCP

Professional Certifications / Trainings

- Google Cloud Certified Associate Engineer
- Oracle Certified Professional (OCP) – Oracle cloud infrastructure
- ITIL 4 Foundation
- Python Fundamentals – Great Learning
- Generative AI by Google Cloud
- Shoshin Anthropic Claude 101
- Shoshin M&E Domain
- LTIMindtree Certified Agile Practitioner(LCAP)

Work Experience

Project 1

Project Name	MD-FMB-MS Support Services	Team Size	10+
Start Date	February 2025	End Date	June 2026
Project Description	Designed, implemented, and support of enterprise UNIX, Red Hat Enterprise Linux (RHEL), and IBM AIX server infrastructure to ensure high availability, performance, and security.		
Role & Contribution	1. Performed end-to-end factory builds, server provisioning, operating system installations, customization, hardening, and post-build validation for physical and virtual server environments. 2. Configured, administered, and maintained Linux and AIX servers, including user administration, storage management, file systems, kernel tuning, and performance optimization. 3. Performed initial screening of user related tickets & BIG Panda related alerts and database queries. 4. Escalated unresolved or complex issues to L3 support while ensuring proper documentation and communication. 5. Monitored application health, server logs, and alerts to proactively identify potential issues. 6. Conducted in-depth analysis of escalated issues, performing root cause identification and implementing permanent fixes. 7. Troubleshoot complex infrastructure issues, perform root cause analysis (RCA), and implement permanent corrective actions to improve system stability and reliability. 8. Collaborated with developers and cross-functional teams to resolve complex technical problems. 9. Completed the Escalation tickets report which help leads to prepare WSR report on weekly basis.		
Technology & Tools	IBM AIX, Factory build and server customization, Git, Jenkins, Patch Management, ITIL 4, Unix		

Project 2

Project Name	MD-FMB-Content Platform-Content Workflow	Team Size	10+
---------------------	--	------------------	-----

Start Date	January 2024	End Date	December 2024
Project Description	In the PNM Soft App Ops Support Our client is Paramount Global where I have Monitored application logs, performed root cause analysis to make sure the client applications working well.		
Role & Contribution	1. Participated in code reviews and ensured adherence to coding standards and best practices. 2. Analysed, diagnosed, and resolved technical issues, bugs, and performance bottlenecks within existing applications. 3. Collaborated with cross-functional teams to understand business requirements and deliver timely fixes or enhancements. 4. Monitored application logs, performed root cause analysis, and implemented preventive measures to reduce recurring issues. 5. Assisted in deploying patches, updates, and configuration changes in production and staging environments. 6. Participate in project meeting to discuss project progress report every day. 7. Collecting real time data for data preprocessing and its classification.		
Technology & Tools	OUAF, Oracle Database, ERP, SCM, Unix		

Project 3

Project Name	MD-FMB-Legal PnmSoft App Ops Support	Team Size	15
Start Date	March 2023	End Date	December 2023
Project Description	Support activities like Analysing the issues and Trouble shooting and finding out the root cause by running the multiple queries to check the job count based on the reported issues for both user related tickets & others.		
Role & Contribution	1. Manages PostgreSQL clusters, backups, replication, and performance tuning. Ensures compliance and availability. 2. Works with DBeaver and pgAdmin to run queries, visualize schemas, and troubleshoot database connectivity. 3. Uses log monitoring tools to detect anomalies, trace errors, and support incident resolution. 4. Manages PostgreSQL roles, privileges, and schema access. Implements least privilege and audits for compliance. 5. Oversees troubleshooting workflows, documents runbooks, and ensures quick resolution of production issues.		
Technology & Tools	AWS, Python, SQL, pgAdmin, DBeaver, PostgreSQL role management		

Educational Qualification

Education & Credentials	Bachelor Of Technology - BTech from Jawaharlal Nehru Technological University JNTUA -GPRE with CGPA -7.56 in the year August 2022
------------------------------------	---

It's time to Outcreate

An abstract graphic consisting of several overlapping, wavy, horizontal bands of red and white. The bands have a textured, stippled appearance, giving them a sense of depth and movement. The red bands are more prominent, while the white bands provide contrast and a sense of lightness. The overall effect is dynamic and modern.
