

Saijayachandraraju Ratnakaram

Experience Summary

- Current Role: Senior Software Engineer
- Over 3.5 years of experience in the IT industry across multiple domains, with a strong focus on development and building robust business logic.
- Skilled in designing, implementing, and maintaining enterprise applications with a strong focus on system reliability, performance optimization, and issue resolution.
- **Built ETL workflows to ingest structured and unstructured data from multiple internal sources.**
- Designed optimized schemas for analytics and reporting.
- Designed and implemented ITIL-aligned workflows for Incident, Change, and Problem Management.
- Worked with business analysts to translate requirements into technical solutions.

Skills Summary

Domain	Media & Entertainment – Paramount Global, Viacom.
Programming Languages	Python, Scala, Shell Scripting
Operating System	Windows 10, 11
Tools / Data Bases	Hadoop, Kafka, Apache Spark, Airflow, Power BI, Power Automate, Data ingestion tools for Log data, Sumologic, New relic, HDFS, PostgreSQL, MySQL
Cloud Services	AWS (S3), GCP

Professional Certifications / Trainings

- Google Cloud Certified Associate Engineer
- Bigdata Professional Great learning
- Microsoft Certified- Database Administrator Associate
- Python Fundamentals – Great Learning
- Generative AI by Google Cloud
- Shoshin Claude 101
- Shoshin M&E Domain
- Shoshin GenAI Unveiled

Work Experience

Project 1

Project Name	Paramount-MS FMB Services	Team Size	15+
Start Date	February 2025	End Date	June 2026
Project Description	To design and implement a scalable data pipeline for internal analytics. Enable faster insights into operational metrics and improve decision-making.		
Role & Contribution	- Created optimized schemas for analytics and reporting. - Applied normalization and partitioning strategies for efficiency. - Automated batch jobs and scheduling using Apache Airflow/Oozie. - Reduced manual intervention and improved reliability. - Partnered with business analysts to translate requirements into technical solutions. - Delivered dashboards and reports aligned with business KPIs. - Collaborated with developers and cross-functional teams to resolve complex technical problems. - Built interactive dashboards in Power BI/Tableau. - Enabled stakeholders to access near real-time insights. - Monitored system performance, resolved incidents, and optimized queries. Provided ongoing support and enhancements post-deployment. - Referred to Costa Rica SanJose location for new role. Received the visa also but due to project hold can't make it to travel.		
Technology & Tools	HDFS, AWS S3, Python, Power BI, Power Automate, Apache Airflow, MySQL		

Project 2

Project Name	MD-FMB-Content Platform-Content Workflow	Team Size	10+
Start Date	January 2024	End Date	December 2024

Project Description	In the PNM Soft App Ops Support Our client is Paramount Global where I have Monitored application logs, performed root cause analysis to make sure the client applications working well.
Role & Contribution	1. Reduced data processing time by 40% through Spark optimization. 2. Improved reporting accuracy by 30% with better schema design. 3. Enabled near real-time analytics for internal dashboards, supporting faster decision-making. 4. Collaborated with cross-functional teams to understand business requirements and deliver timely fixes or enhancements. 5. Participate in project meeting to discuss project progress report every day. 6. Collecting real time data for data preprocessing and its classification. 7. Assisted in deploying patches, updates, and configuration changes in production and staging environments.
Technology &Tools	PostgreSQL, Amazon S3, MySQL, Python

Project 3

Project Name	MD-FMB-Legal PnmSoft App Ops Support	Team Size	10
Start Date	March 2023	End Date	December 2023
Project Description	Performed activities like Analysing the issues and Trouble shooting and finding out the root cause by running the multiple queries to check the job count based on the reported issues for both user related tickets & others.		
Role & Contribution	1. Manages MSSQL, PostgreSQL clusters, backups, replication, and performance tuning. Ensures compliance and availability. 2. Works with DBeaver and pgAdmin to run queries, visualize schemas, and troubleshoot database connectivity. 3. Uses log monitoring tools to detect anomalies, trace errors, and support incident resolution. 4. Manages PostgreSQL roles, privileges, and schema access. Implements least privilege and audits for compliance. 5. Oversees troubleshooting workflows, documents runbooks, and ensures quick resolution of production issues.		
Technology & Tools	MSSQL Management, AWS, Python, SQL, pgAdmin, DBeaver, PostgreSQL role management		

Educational Qualification

Education & Credentials	Bachelor Of Technology - BTech from Jawaharlal Nehru Technological University JNTUA -GPRE with CGPA -7.56 in the year August 2022
------------------------------------	---

It's time to Outcreate

An abstract graphic consisting of several overlapping, wavy, horizontal bands of red and white. The bands have a textured, stippled appearance, giving them a sense of depth and movement. The red bands are more prominent, while the white bands provide contrast and a sense of lightness. The overall effect is dynamic and modern, complementing the 'Outcreate' theme.
